

# CONNECT WITH COMTECH

Free up your valuable time and resources by calling on the experts in providing total data communications solutions. At Comtech, we handle it all – so you don't have to.

- Satellite services. Delivered via Comtech's own satellite Teleport, and managed by us.
- Telecom services. We're your one point of contact for coordination of multiple suppliers of fibre optic, copper cable, Internet, broadband or other infrastructure links.
- Wireless services.
- Point-to-point network and point-to-multi-point SCADA solutions.
- One-point, seamless integration of all services through our state-of-the art Network Operations Centre.
- Management Services for 'round the clock monitoring and support of your remote communications system.
- Field support from one of the largest and most knowledgeable field service teams in Western Canada.

We have the remote expertise. Connections with technology partners like MDS. And a solid 12- year track record in moving data to where you want it to be.

For more information, call our office in Calgary at **403-735-6330**, toll free **1-866-437-6695** or e-mail [info@comtech.ca](mailto:info@comtech.ca)
